

ONO Brewing Company- Private Event/Full Location Buy-Out Information and FAQs

Our tasting room has 110 seats and 139 person max capacity. Parties with over 75 guests need to rent our entire facility as a “buy out” that would give you exclusive access to the tasting room for a private event. Our "buy-out" rates for private events include an hourly facility charge including a beverage minimum, a food minimum, are subject to 6% sales tax and a minimum 10% gratuity. The beverage and food minimums vary with day of the week and time of the request. Weekend rates are significantly higher, therefore, you are encouraged to consider a weekday or Sunday for your event, if you desire a lower cost.

The “facility holding fee” is \$200 and will be collected as a non-refundable deposit for the event to hold the date. Buy-out events are scheduled for 3-4 hours plus 30-60 minutes before and/or after for set-up or clean-up. (Timing will depend on the amount of clean-up/set-up needed including re-arranging of tables etc to transition to or from normal tasting room set-up.) Additional event hours can be purchased and pricing is determined on a case by case basis.

Your individualized event quote will include a rental fee that includes an included beverage tab (beer and non-alcoholic beverage) and a “food minimum”. This is the minimum amount of sales expected during the event to compensate both Ono Brewing and Odd BBQ (separate businesses under one roof) for closing their businesses to the public for a private event. The caterer is a separate business from the brewery.

FAQs

- 1. How is the beverage tab handled with the self-serve beer wall?** For private events, your rental fee includes a beverage tab equal to the amount of your rental fee to include beverages poured on the self-serve beer wall and non-alcoholic beverages including an assortment of sodas, teas, and fruit-flavored waters. (For example, if your rental fee is \$1000, your beverage tab will be \$1000.) We will be responsible for IDing guests that look underage and make sure that guests are not “over-consuming”. Tab is for on premises consumption only during the contracted hours. Additional time and beverage tab can be purchased if you wish to extend the event beyond the contract end time or if you have reached the level of consuming your allotted beverage tab before the end of your event and you wish to keep the bar tab open longer.
- 2. What food options do you have?** We do have a contract with a full-time caterer, Odd BBQ. There are full dinner packages as well as appetizers and dessert options. Food orders will be placed/paid directly to Odd BBQ. Odd BBQ and Ono Brewing Company are separate businesses, operating under one roof, so purchasing more than the required food minimum will not decrease the beverage minimum, and vice-versa. There is a separate food minimum purchase requirement from Odd BBQ for private events in addition to the Ono Brewing rental fee.
- 3. Can we bring in our own food?** Outside food and drinks is not allowed, with the exception of a cake or other dessert item. Per our agreement with our caterer, Odd BBQ, the required food minimum must be paid to the caterer as part of the buy-out contract. If

you wish to use another caterer after paying the buy-out cost to our caterer, that is allowed, however, Odd BBQ is fabulous and we highly encourage you to discuss with them if there is something you want that you do not see on the menu.

4. **Can we bring in wine?** Wine/outside alcohol is not allowed on the Ono Brewing premises, per our ABC license. Please note that this includes any gift items. Alcoholic gift items are not allowed on our premises. If you would like to have wine or other alcohol, this would require a special ABC license obtained by the host. Please contact cyndi@onobrewco.com to learn more about this option.
5. **Can we hire a musician for our event?** You can absolutely bring in a musician for your event. This would be paid for and reserved by you. We can provide the space for the musician to set-up but they need to bring their own sound system.
